Get More. With Quest Software

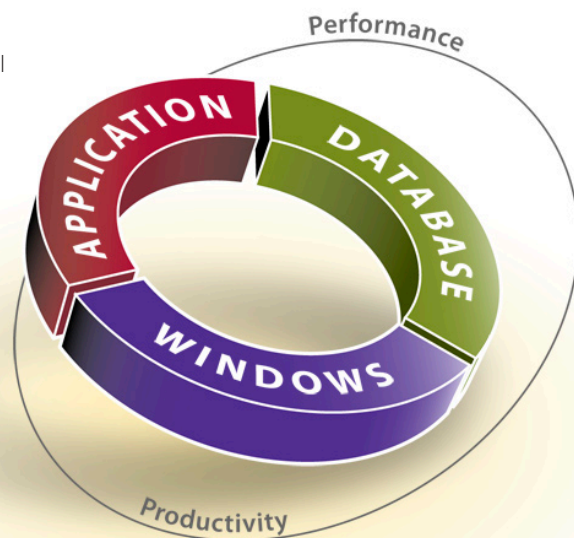

Since 1987, Quest Software has earned the confidence and loyalty of its customers and its employees while becoming one of the top companies in its market. Our products are unparalleled -- and Quest seeks the same level of excellence in those who join us.

Perhaps the three words that best describe Quest are confident, competitive and caring. Quest people know that the products are second to none, and it's that confidence that drives us to compete aggressively in the marketplace. With that same degree of passion, we care about each other as well as the communities where we live and work.

Award-Winning Solutions that Help Customers Get More

Quest Software develops innovative products that help more than 50,000 customers around the world get more performance, productivity, reliability, availability and value from their applications, databases and Windows infrastructure.

- For applications, we deliver, manage and control complex application environments - from end user to database.
- For databases, we improve performance, availability and manageability from design through production.
- For the Windows environment, we deliver comprehensive management, migration and integration capabilities to simplify, automate and secure infrastructure.

We have won a host of prestigious awards, and we receive more every year. One of the latest ones: Microsoft's Global ISV Partner of the Year for 2007. We've also been ranked #1 by top industry analysts such as Gartner, IDC and Forrester Research.

Why Customers Select Quest

We are passionate about three things: our product innovation; our deep IT expertise; and our continued focus on what our customers need most.

- **Innovative Products:** Quest works closely with strategic software providers to discover new ways to improve upon their native management capabilities. And, we invest heavily to develop and deliver products that take thousands of IT administrators and managers beyond what they knew to be possible.
- **Deep IT Expertise:** Quest has a long-standing history of employing the industry's leading experts and we build that expertise into our products. From research and development to ongoing support, you can depend on our deep domain knowledge to address your toughest IT challenges.
- **Continued Focus:** We must constantly adapt to advancements in technology. But even as our markets evolve and expand, we remain committed and focused on improving the value that IT investments can bring to our customers.

Toad[®] is one of the many award-winning products that has earned Quest Software a reputation for innovation, expertise and a keen focus on the latest technology advancements.

If you're ready to commit your talent and dedication to making yourself and others more successful, consider a future with Quest Software.
